Winifred Reeve

RE: Story for Schildkraut

I would like to call your attention to my novel "His Royal Nibs", which would make a corking picture for Schildkraut. It would be something new and original, a high class Western with Schildkraut playing the part of a young English tenderfoot on a Canadian ranch.

I feel quite sure that Mr. Schildkraut would see the possibilities in this story, which was recommended by both the New York and the Coast story departments.
